Farm Bureau To Handle Federal Loans in County

L. V. Hite, President, Names Committee To Aid in Obtaining Government Aid for Agriculture Here; Will Complete Plans Soon.

Preliminary arrangements to handle applications of Marion county farmers for loans from the federal reconstruction finance corporation were being made at the Farm bureau office here today following the receipt of information that loans will be available here.

L. V. Hite, president of the Marion County Farm bureau, has named C. D. Cope of Pleasant township, William Wilson of Grand

Prairie township and R. E. White of 798 south Prospect street, a committee to assist him in handling the loans in this county.

Application blanks will be available at the Farm bureau office some time this week, and complete information regarding the filing of applications will be available probably in a few days. It was announced this morning.

Headquarters of the Morrow County Farm bureau at Mt. Gilead has announced that blanks for loan applications are on hand there. H. S. Kirkpatrick, president of the Morrow county organization, said the committees probably will be appointed in each of the 16 townships.

E. A. Myers of the Ohio State university extension service recently explained the working plan of the corporation to Morrow county farmers. An interest rate of six per cent is charged for loans, and loans to an individual are limited to \$400. All applications must be made by April 30. Approximately \$50,000,000 is available for use for farmers.

SARAJEVO SUFFERS FROM WAR EFFECTS

By United Press. SARAJEVO—This small city to which the spotlight of the world ever returns as the spot where the World War began, reaped a gruesome harvest from that conflict, according to figures recently presented at a women's pacifist meeting here.

It will be remembered that the Drina river was the scene of the first war operations between Austria and Serbia. According to the pacifist organization's figures, that part of the Drina province on the right bank, comprising 15 election districts, now numbers 21,286 fatherless children, 6,183 war orphans, 5,735 dependent children of war invalids, 9,824 undernourished and an additional 856 which starved, while 917 were morally corrupted. If the 17 districts on the left bank are added, it was declared that the total of unfortunate children would exceed 100,000. Sarajevo is in the center of the Drina province.

MARS CLUB AT Y ELECTS OFFICERS

Francis Fairchild was elected president of the Mars club at the annual business meeting Monday night at the Y. M. C. A. Robert Reid was elected vice president, Homer Houseworth was chosen secretary, and Carlos Hatcher was named treasurer.

The Mars club is associated with the state Y. M. C. A. and is the second Mars club to be organized in Ohio. The first club was organized at Bellevue.

Fairchild succeeds John Sloan as president.

Who Wants Economy?

President Hoover, having the advantage of knowing what is going on behind the scenes, doubts that congressional talk about economy ever will develop into action. In a special message, he has requested appointment of delegates from the senate and house to confer with him and arrive at some kind of a tangible program.

Federal economy is not a partisan issue, no more so than economy these days in any one of several million homes. Neither is opposition to economy entirely a matter of partisan political policy, though it happens that Republicans are in control of the departments. The power to enforce economy lies with congress, where Democrats have actual control in the house and only slightly less than nominal control in the senate. However, they can not be held responsible.

It is difficult for critics of congress to realize that the seemingly unpopular reluctance of the legislative branch to enforce economy is not inconsistent with the operation of representative government. An explanation can be found by answering the question, Who wants economy?

Not federal employees; they are bitterly opposed to any reduction of salaries or curtailment of activities. They represent approximately 600,000 votes in the government. Not the enterprises dependent on government subsidies; they claim that decreases would injure thousands of Americans by throwing them out of employment. Congressmen can not be expected to be deaf to their arguments. Not the states; they want their federal subsidies. Not agriculturists; they demand that aid from Washington be continued. Not the dozens of other interests which help the federal government to spend its money; they need it. A threat to remove any portion of it or the services it makes possible brings a wall that senators and representatives are invited sternly to heed, with a thought for coming elections.

Federal economy, like state, county and municipal economy in many instances, is still in the "fine talk" stage. When Americans recover a little more fully from the hallucinations of unending prosperity that captivated them during the late boom they may get more enthusiastic about actual economy. The President's steering committee is a step in anticipation of that development of the popular attitude.

Daily Proverb—It is no time to swap horses when you are crossing the stream.—Lincoln.

Ernest Lubitch says that it would be better to wipe out crime than to wipe out crime pictures. How can crime be wiped out so long as crime pictures endure and educate the youth of the land in the ways of crime?

There's a lot of sound sense in the observation of Walter Lippmann, that "prosperity will return when men cease trying to restore the past and begin to build for the future." Isn't it a regular twin brother to the truth?

The management of the casino in Central park, New York City, is two months behind on the rent of the "playground of the rich," as it is often referred to in type, and under the terms of the lease it may be taken over at any time. The probable explanation of the financial strait of the management is that the sucker crop hasn't been anything like so large as anticipated.

Prince George is all right so far as he goes when he says that many modern novels should be operated upon for gangrene approximately two-thirds of the way through, but he doesn't go anywhere near far enough and fails to take in enough territory.

Representative John J. Cochran, of Missouri, says he will introduce a bill to pay World War veterans approximately \$2,225,000,000 from funds derived through a tax of three cents a pint on three per cent beer. Although the Missouriian did not so state, it may be assumed that he figures that the sooner the necessary volume of beer is consumed, the sooner the bonus will be wiped out, to say nothing of the stimulus beer-making would afford employment.

It's hard to understand why the newspapers, in publishing the story of the theft of 1,500 pairs of hose out in Evansville, Indiana, should feature the fact that the thief left the pair he had been wearing. What more natural than that a man with 1,500 pairs should change his socks?

Senator Borah says that there is another way to balance the budget than the levying of taxes, and that is to cut governmental expenses. It might not be amiss were the senator to consider what kind of a reception the house gave Mr. Hoover when he suggested something along the same line.

"Not a Revue"—"Not Sophisticated."

One heavy black face cap line in the advertisement of Florenz Ziegfeld's latest offering—the musical comedy, "Hot-cha," in which Bert Lahr and Lupe Velez are featured—run in the New York City Sunday papers reads: "Not a Revue," and another, "Not Sophisticated."

Mr. Ziegfeld, who was among the first of the New York producers to appreciate the fact that the theater-going public was tiring of nakedness, evidently has come to the realization of the further fact that the present-day trend is away from the coarse, the suggestive and the filthy. He doubtless has also been convinced that, while the so-called sophisticated element was for a time held worthy of box-office consideration in New York, it is no longer, and that outside the metropolis there is an ever-increasing demand for decency. Artistic and marvelously beautiful as was his Follies production of 1931, it failed to draw patronage sufficient to make touring profitable. He could not well offer a revue of the more elaborate offerings and escape the fifth marring mow of them, and thus he has crossed the line in his latest offering to meet the improved taste of American playgoers.

It must not be taken from this that "The Follies of 1931" was any more offensive to clean-minded people than other offerings of its kind. Earl Carroll's "Vanties" and George White's "Scandals" were similarly marred and the less elaborate "Band Wagon" perhaps, all things considered, the worst offender. The elimination of one or two numbers from each of them would have made of it a charmingly entertaining offering.

But all this is aside our mark in making reference to the "Hot-cha" advertisement, the purpose of which was to bring out that so good a judge of the taste of patrons of the theater as Florenz Ziegfeld is demonstrating by his advertising his belief that the public is tired of the coarse and suggestive and is asking for entertainment without the blemishes which have marked many of the most elaborate offerings of the New York stage. If New York has turned to cleanliness in productions, it may be taken that the change is countrywide, as the country to the west of the Hudson has long been spared much of the objectionable by the age-old practice of most producers of tuning down their offerings for presentation outside New York.

The British are preparing to cut the time of their crack train, the Royal Scott, by twenty minutes, so that one section will cover the 401 miles from London to Glasgow and the other the 400 miles from London to Edinburgh in seven hours and fifty-five minutes. One who doesn't think that is moving right along should compare that time with that made by the fastest American trains over similar distances.

Joseph Ferrara, of Gary, Indiana, is a candidate for the Democratic nomination for sheriff, his wife is running for the nomination for auditor on the same ticket, his daughter seeks to make the race for recorder and the daughter's husband is a candidate for the nomination on the Republican ticket to oppose his father-in-law should both be nominated. It's queer when an entire family suffers from the same disease.

Beware the Women!

This is a period of intense concern with taxation. Already high, it is presently to be boosted still higher by the urgent needs of the federal government. America is going to have a taste of war-time taxation without any war to make its sacrifices seem noble.

Women will be co-sufferers, as they are in all taxation. They control forty per cent of the nation's wealth and pay directly a large share of the cost of government. They pay a larger share indirectly. They know that the problems of home-making have been made vastly more difficult by what amounts to a confiscatory tax burden. Young women starting out can not have homes of their own; older women can not keep their homes.

Obviously, women constitute a section of public opinion which, if aroused, could speak in government with a voice so loud that no one would dare ignore it. And now, with the standard of living being hammered down from the top by economic adversity and soon to be tugged at from the bottom by even heavier taxes, women are being encouraged to exert their influence.

It is mainly by means of a program proposed by the Ladies Home Journal that this is being attempted directly. That magazine, with a wide circulation among women, has announced its willingness to act as spokesman. First, however, it must act as agitator, a job which it is doing with impressive vigor.

Its proposals for action by women voters are: To insist on a balanced budget in all branches of government, to control expenditures so that communities will not be taxed out of proportion to their ability to pay; to force collection of delinquent taxes and to put candidates on record for observance of the program and see that they live up to their promises.

Beware the women! Once they learn to resent the inefficiency of government and the reckless spending that causes heavy taxation there will be a change. But how long will be required to build up their resentment?

An East Liverpool woman pottery worker is in a serious condition as the result of striking her head on the brick floor of the plant in which she and the practical joker, who pulled a chair from under her as she was about to sit down, are employed. Despite all our institutions there still are people uncaged who like to play jokes like that.

The department of justice representative who investigated conditions in Honolulu, has filed a voluminous report, blaming police laxity and politics for the crime crisis there and recommending that the United States take over law enforcement in Hawaii. Police laxity, the result of politics, will mess up things almost anywhere, but Uncle Sam hasn't made such a record in law enforcement here on the mainland that results of his interference in the islands would positively assure greatly improved conditions.

Editorial Opinion.

MASTER OF LIGHTING.

New Yorkers not long ago were surprised to hear the remark of a Parisian that his gay white way was a conglomeration of light without much taste. So long had they been accustomed to look upon the flashing bulbs and scintillating signs of the movie houses and other advertisers in the Times-Square section as representing the acme of electrical display, they felt as if some jealous soul was taking, as the saying is, an unkind crack at their city.

The other day the maker of the remark, Fernando Jacopozzi, died, and Paris, where artists are loved and respected for the beauty they bring into the world, mourned his passing. For to that "city of light," Jacopozzi, who was Italian-born, brought a new art of electrical illumination and outdoor display which caused illuminating engineers the world over to note and admire his work.

Utilizing indirect lighting in a manner in which it had not been heretofore employed, making the means of the illumination invisible while the effect was superb, he created some unusually striking effects. Possessed of the soul of an artist, he knew how to focus his beams on the right spot. The facade of a building, a fountain or a monument was not merely an object to be brought out against the blackness of the night by mere flood lighting. By putting his lights in the right position, by using stronger rays at one point than another, he made fountains appear alive, trees of grace, statuesque figures were caught at the right angle, the bulk of the Madeline was veiled in soft shadows, while the ornamental frieze seemed to step forth from its frame of stone, and the Place de la Concorde with its many memorials and monuments and public buildings became an enchanting fairyland at night.

His piece de resistance was the Colonial Exposition. There he evolved all sorts of ingenious and artistic means of illumination. No exposition had ever been lighted that way before. An artist had come to show the world how much it had to learn, not merely in the use of electricity as an illuminating agent, but as a means of beautifying cities and parks.—Philadelphia Bulletin.

TO STRANGE ISLANDS.

Explorations in recent years on both ends of the earth and into many hitherto "dark spots" on the map have given the impression that there are few if any virgin fields left for the adventurer or the colonist, but such is not the case. In the Pacific ocean, about 250 miles south of the tip of Lower California and 350 miles off the west coast of Mexico, there lies a group of four islands known as the Revilla Gigedo. Like the Galapagos islands, off the coast of South America, they are of volcanic origin and like them up to this time have defied successfully colonization by man, although many queer creatures and several breeds of animals of the sheep and goat family seem to thrive there.

A company of Mexicans is in readiness to set out for the Revilla Gigedo and see what can be done about establishing a permanent colony there. Large areas of the 320 square miles comprised in the islands are still covered with lava and ashes, but there is sufficient animal life and verdure to tempt the adventurous Mexicans. They may not belong to the noble company of Columbus, Marco Polo, Leif Ericsson, Brandon, Drake, Frohisher, Magellan, de Gama, Cook and all the others who helped "make the world round," but they are hardy and courageous souls who deserve success in their attempt to cultivate another spot on the globe.—Hartford Times.

It Will Fit the Situation.

The voters of Prospect authorized a \$3,000 bond issue to remodel the school building at that place.

Anemia Often Caused by Dieting.

BY ROYAL S. COPELAND, M. D.

Lack of proper food causes many constitutional diseases. Food is fuel for the body, and without fuel the body can not thrive. Many persons, anxious to reduce in weight, skip meals and the consequence is likely to be undernourishment of the body. Though there are many causes of anemia, severe dieting is one of the most common.

Another cause of anemia is loss of blood from severe hemorrhage due to accident or disease. Anemia also is met in rheumatic fever, typhoid fever and other diseases where high fever persists.

The word anemia comes from the Greek, meaning "without blood." In this condition the blood becomes thin and watery due to a reduction of its coloring matter, the hemoglobin. There is also a reduction in the number of red blood cells.

Anemia is easily recognized by the general appearance of the patient. The skin is pale and the lips lose their reddish and healthy color. The afflicted person complains of shortness of breath and loss of body and mental vigor, and tires quickly. The appetite is poor and the digestion is upset.

In most cases of anemia the treatment is simple and effective. Complete rest is necessary. The food should be simple, yet wholesome and nutritious. It should consist of plenty of fresh fruits, vegetables, milk, cereals, butter and eggs. The value of fresh air and sunlight can not be overestimated.

A form of anemia, or an ailment closely allied with it, caused by lack of fresh air, is called chlorosis. This is most commonly found in young girls who are confined to close and badly-lighted rooms. This disease is rarely, if ever, seen in country-bred girls.

Pernicious anemia is the most serious form. This condition requires careful and prolonged medical attention.

It is only within the last decade that a treatment for the control of anemia has been discovered. This is the liver diet. Before the value of liver in the treatment of this disease was realized, pernicious anemia was one of the fatal diseases.

When liver is fed to these sufferers there is an increase in the number of red blood corpuscles and the hemoglobin of the blood. In addition, there is marked improvement in the general health of the afflicted individual.

Liver extract in powdered form can now be purchased. It is sprinkled on the food and used as a substitute for fresh liver. This is advantageous, since the continued eating of liver often becomes disagreeable and interferes with normal digestion.

Good health is a priceless gift. It is easy to abuse and difficult to restore. Please remember that the body requires nourishment, care and rest. When these are neglected, serious damage is done to the body.

ANSWERS TO HEALTH QUERIES

Ruth B. Q.—What can I do for a poor complexion? Would yeast be of benefit?

2.—What can be done for large pores?

3.—Do orange-juice acidity or do they combat that condition?

4.—Correct your diet and take more outdoor exercise. For full particulars send a self-addressed, stamped envelope and repeat your question. Yeast is sometimes very helpful, aiding elimination and improving the system in general. If it agrees with you there would seem to be no reason why you should not take it.

5.—Alternate application of heat and cold, in the form of compresses applied for about five or ten minutes twice daily should bring about results. Avoid the excessive use of powder and cold cream.

6.—Not as a rule, although each system is different and should be treated accordingly. Onions are healthful and appetizing.

CS Q.—I have had two operations for osteomyelitis of the leg about two years ago. What can be done to avoid further trouble? Would walking or dancing be liable to affect the leg?

2.—What can be done to dark circles under the eyes?

3.—Have the underlying cause definitely treated and cleared up. Your doctor will advise you along these lines. It might be wise to avoid undue exertion until the leg is entirely normal.

4.—This condition may be due to lack of rest, constipation, a generally run down condition, etc. Try to find the source and the proper treatment will probably suggest itself. Be sure to keep your system clear. For full particulars send a self-addressed, stamped envelope and repeat your question.—Copyright, 1932, King Features Syndicate, Inc.

Africa's Enchanted City.

BY TEMPLE MANNING

Many wise and fortunate people manage to spend their winters in Algiers. Some have been attracted to it after visiting it as a port of call while on a cruise. Others go there as the guests of friends with villas there. But few just give Algiers a cursory glance and then sail away without any further desire to return. For it is a sparkling city offering much to see and to do, a grand antidote to a northern winter and all that goes with it.

Algiers extends 600 miles along the north African coast and stretches inland from 320 to 380 miles. Oran is on the west, Constantine in the east and Algiers in the center. Usually it is approached by cruise ships from Gibraltar, some 410 miles to the east. The wise traveler will hire himself to the ship's library and study Algiers and its checked history, for it makes grand and exciting reading. The city was founded in 844 and later became the stronghold of the famed Barbary pirates. Since 1830 the French have occupied Algiers and then annexed it as a colony. It has been a stiff task to subdue the natives. And when observing the lazy stupid Arabs, it is kept the civilized world in constant terror and dominated the whole Mediterranean region.

Algiers is superb in scenery and views. From the sea, it appears a succession of dazzling white terraces. Each house is set in gardens abounding with luxuriant foliage and the effect is enchanting. The French section is built beside the water, the native section clings to the steep hills and both quarters are crowned by the citadel, which rises some 400 feet above sea level.

The famous Algerian suburb, Mustapha Supérieur, is back of the city to the east and south. Here are the grand hotels and fine villas and the lovely summer palace of the government.

Directly the visitor lands, the first thing noticed is the splendid Boulevard de la République, a waterfront drive with supporting archways and ramps connecting with the landing stages. It is 3,700 feet in length and at the southern end leads into the Square de la République, while at the northern end is the Place du Gouvernement, planted on three sides with double rows of leafy trees. Here, Algiers' strolls of nights and the picture is a never-ending source of delight to the visitor, no matter how many times he has taken the evening stroll in the busy place. The business and administrative part of the French city is south of the square, where the Moorish post office, the municipal buildings and the law courts make a pleasing group. Wide, well-paved streets are lined with shops. And the French influence is noted through the medium of the arcades with shops on either side. And the latest from Paris is to be found in the dress and perfume departments.

Of course, the real traveler concentrates on the old town, with its winding, steep and narrow streets. Chief among these is the Rue de la Kasbah, leading up to the citadel by a series of steep steps. The houses are of whitewashed stone, with small overhanging balconies. The shops are just holes in the wall and, native craftsmen work at gold and silver thread embroideries and leather articles in full view of passersby. Then one visits the native markets, full of animation and excitement all ways.

Agas and the remains of lovely palaces are found there, too, with cathedrals and glorious gardens. And every day can be devoted to sightseeing, because the climate is mild, sunshiny, lovely. And the visitor soon meets residents and very often finds himself a house guest in a villa that is a mixture of native beauty and modern comfort.

Indian Children at Play.

BY J. H. GALBRAITH

The play spirit is strong in children of civilized and savage people alike, and travelers through Ohio in the pioneer days told interesting stories of their observations upon the children of the Indians at their play. Their winter sports were specially interesting.

They did not have skates, of course, and knew nothing of this excellent exercise. They could slide on the ice of course, and doubtless did. And doubtless also their elders scolded them for wearing out their footwear in doing it. As protection for the feet was even more necessary with them than with children and footwear not so easily obtained, the rule against sliding probably was even more strictly enforced.

The Indian boys had no sleds, but they improvised a very good substitute to be used in the sport of coasting. A settler in Henry county, who went to that county on the banks of the Maumee in 1820, when a number of Indian boys would remove the bark of the white elm in strips a foot and a half wide and from six to eight feet long. Turning the inside or smooth side to the snow on the ground they secured a smooth surface on which to secure a foothold as they rode standing down the hill that they had chosen.

One boy stood at the forward end with a thong tied into each side of that end of the bark, by which he elevated it slightly like the runners of a sled, and at the same time gave it some direction. On this as many as six or eight children, Indians and whites, would start down a long hill leading out upon the surface of the river, upon which if all went well they would go almost to the farther shore, but if the guide was not expert there would be a spill, which would give them almost as much fun.

Another sport with the elm bark was to take two squares of the bark about two feet each way, place their smooth sides together, lay them on the ground and then run and jump on them. The unskilled would be sure to cause the bark surfaces to slip, and get a fall.

New York Day by Day.

BY O. O. MINTYRE

NEW YORK, April 6.—Word came from Paris that the lively group of American patriots suddenly dwindled to a handful of them have been regimented with the "note" of a world churning in turmoil. The Paris bar, Sherry's, Harry's and like has the distinction of Napoleon's tomb. Visitors have mostly heeded over the French capital and sped on to St. Court Boni, shunted to a wheel chair, circulates, buttonholed and marveled fashionable Place Vendôme. Mabel Coe max clings to the bleak isolation of many chateaux.

Lou Hauser alone holds the fort, with clock-like precision into the Rue 10 a. m. and 7 p. m. as has been his custom fifteen years. But usual faces on the side are missing. Even "The Eskimo" schnauzer are among the missing. Arthur and Eve Marvel are condoling in Vienna.

Ike Metzger, celebrated Brooklyn newsie, critic European editions before newswire from the Cafe de Paris, but patron saint. Hawkwood guides have abandoned near the American Express. Poor ladies of the boulevards are gone.

The blonde, silken-voiced Erskine of whose mother was a Vanderbilt, man, weather the storm with his Boulevard; weaving spice to the Yankee colony, months ago. The former Paris playboy doing all the chores when the brave journal gave up the struggle.

Sylvia Lyon, San Francisco girl, who of being hired and fired by every sophisticated journal in London and Paris, is among the Montmartre attic, turning novel. Ernest Hemingway fishes off among the Florida keys. Earl White, once a domesticated in Constantinople, Gilbert White, portrait painter and rare extraordinary, spends most of his time studio, and save for a reunion with G. Norris around the Christmas holidays, as he is secluded as a monk in the So Paris drowns, awaiting "The Change."

New York has about 150 fox-hunters to hounds yearly. Most of the pink coat transplanted Virginians or Carolinian people of means. Nothing can stop their steeplechase. Of course, the rumormongers turn out a might fine bucket of apples down yonder has nothing to do with the real. No sah!

Rupert Hughes, in the throes of a novel, sines a quart of coffee a night. His situations at the side of his work, he fortifies himself at half hour intervals, there is Damon Runyon who can do away a dozen cups or so if the company in cold. But the heaviest java drinker of all was late Alfred Henry Lewis, who kept a huculator bubbling night and day, and rehimself with demi-tasse gulps every minutes.

Stopping at a twenty-cent vaudeville on Tenth avenue the artist of the moment one of the old-time ballad singers like who used to warble with slides. His has slipped into a lion tamer's roach and he a Prince Albert coat of the nineties. The sort who seemed listening to his own rolling his eyes rapturously when he to particular high one as much as to say "dang!"

On starkly bleak Tenth avenue, a rouged and gaudily-dressed woman came of a tenement followed by two spindly children. She ordered them back into the explaining she was going to market and be back soon. At the next corner she before a drug store window expectant, few over-shoulder glances culminated in fation, and soon she walked up a side arm in arm with her catch. A Crook-Proof Ink.

BY H. A. PETERS

BERLIN, April 6.—U.P.—The reorgan of Germany's big banks, involving the of several institutions and the reduced capital, has thrown thousands of bar plays into a state of uncertainty as many of them will be weeded out in the final round.

In fact, the status of a bank empire been rather a precarious one for the last nine years, when a gradual process of reducing the personnel began following recession of the tide of inflation.

In 1923, at the peak of inflation, it was estimated that there were 230,000 bank employees. By the end of 1924, the figure had dropped to 115,000, and now scarcely 70,000 can be spared.

Installation of tabulating and accounting machines, combined with an increase ployment of young girls as typists and clerks, following various internal revision system, has caused the discharge of the experienced bank clerks.

In view of this, and anticipation of the combinations, the Society of German Employes has been conducting a struggle with the government for restoration of employees as have long service records must be dropped. An agreement already been reached whereby some 20,000,000 will be paid gradually to the Dresdner—which is absorbing the Danat bank—reimbursement for benefit of older ex-employees many employees will be discharged can be determined, but it is probable that 5,000, perhaps more, will lose out.

A "crook-proof" ink which he claim make impossible the raising of checks, of signatures, on any part of important matters, has been brought out by W. D. Hauer.

The fluid has the appearance of ink and eats its way partially into the paper, defying removal either by chemicals or solvents. In a test with ordinary ink ordinary ink disappeared entirely while hauer's ink merely smeared it, taking the paper with it.

Physician Says America Leads Medical Science

More Young Is Speaker at Monthly Meeting of Marion County Group; Dr. N. Sifritt and Dr. Carl W. Sawyer Also Share Program.

Dr. Young, who has practiced medicine in Marion for 25 years, will be joined in June by Dr. Floyd Yeager of Detroit who will assist him in his general practice. In November of this year Dr. and Mrs. Young will leave for Vienna where the former will continue his study in the clinic. Upon his return to Marion next year Dr. Young plans to specialize in heart, kidney and diseases of the blood vessels.

Sharing the program with Dr. Young was Dr. N. Sifritt, county health commissioner, who presented a paper on undulant fever. The disease is becoming one of the important ones in which the medical profession is interested itself he said and told of the research work which is being done in regard to it. Because of the similarity of symptoms the disease is frequently confused with typhoid, acute rheu-

matism and other fevers he pointed out. Education and the institution of precautionary measures are the only way to prevent the disease or its spread in a community, he stated.

Diagnosis and treatment of the rheumatic state, acute colds, infection, high blood pressure and diseases of the heart and stomach were discussed by Dr. Young in his address which was of interest to both the professional man and layman. Complete rest was the advice given by the physician to persons suffering from cold complications are the serious problems to be considered, he pointed out.

Elect Trustees

Preceding the program hour a short business session was held with Dr. E. L. Brady, president of the organization presiding. Dr. F. L. Thomas was elected a trustee for four years and Dr. J. W. McMurray for a term of three years. The members also voted to contribute their services at the various school buildings of the city for the examining of children of preschool age. The work will be done cooperating with the health director.

Dr. James W. McMurray, Dr. J. W. Jolley, Dr. Willard Bull, Dr. Bernard Taylor of Green Camp, and Dr. L. L. Roebuck were named as a committee to confer on the

activities of the city and county nursing service.

Dr. Carl W. Sawyer is in charge of arrangements for the next meeting in one month Dr. Theodore Zuck of Cleveland, former Marion resident, will be the guest speaker.

Marion Travel Contest Entry List for Fourth Week Shows Students Continue Drive for Vote

Boat Trip Around Manhattan Island on Program for Third Day of Trip

Party Will Board Steamer in Morning; Will Take Lunch on Ocean Liner.

On deck for the third day of the 1934 travel contest tour: What a glorious time has been planned for the third day for the winners of the contest in New York City. The sponsors, the Marion merchants, The Star and the Erie railroad, have planned and provided a day that will stand out in the memories of those who make the trip.

An entire day will be spent on the water, first on a steamer and then on an ocean liner. Nothing more interesting or exciting could possibly have been arranged for this day.

Bright and early on the third morning of the trip the touring party will leave by subway for the Battery, where it will board a steamer.

The entire morning will be given over to a trip around Manhattan

island. Up the East river, through the Yonkers canal and down the Hudson river the party will go, coming in at noon for luncheon on one of the large ocean liners.

The afternoon will be spent in exploring the huge ocean-going ship, one of the most interesting afternoons that any person could have. An ocean liner is an institution in itself, and to inspect it from stem to stern, from engine rooms to luxurious suites, will be the privilege and the pleasure of the contest party.

An entirely different view of the great city of New York will be given from the boat trip around the island. In panorama, the splendor of the tenements, the grandeur of the palaces, the quiet beauty of the wide Hudson, the congested array of ships from every port in the world, jammed together on the Battery waterfront, a glimpse of Ellis island and a hundred other places and sites will be seen on the trip around the island.

Students Will See New York from Grandeur of Palaces to Squalor of Slums.

The boat trip will give the tourists some idea of the tremendous "bigness" and crowded hustle and bustle of the great metropolis.

Ride on "L" The trip back to the hotel will be made on the elevated, to give the party the thrill of riding once on the famous subway and once on the elevated railway.

At 9 p. m. special coaches will take the party to the station for the trip to Washington D. C., Alexandria, Va., and Mount Vernon. The train will leave Jersey City at 1:12 a. m. The sponsors hastened to add, however, that the sleeping car will be made up by 10 p. m. so that those too fatigued to stand or sit another minute after such a full day, may tuck themselves in for a good sleep before the rounds of the Washington day begin.

At the opening of court today a tentative jury of 12 was seated, with 22 peremptory challenges remaining to the prosecution and 23 yet unexercised by the defense.

Those in the box were six Anglo-Saxons, three Chinese, one Japanese, one Hawaiian and one Portuguese.

GROLL TEAM WINS PISTOL CLUB SHOOT

Captain L. Groll's No. 3 combine of the Marion Revolver association turned in a high score of 1801 last night on the police station range to defeat Captain Ira Shrock's No. 6 team. Shrock's marksmen shot a total of 1596.

High scorers for the winning team were L. Groll with 390 and Baker with 364. N. M. Landis was high for the losers with 363 and Shrock was second with 326.

Captain Lawrence Schneider's No. 4 team will meet Captain Harry Smith's No. 5 combine tonight.

UNPAID PLEDGES TO FUND HAMPER WORK

Payments to Agencies Can Not Be Met Unless Subscribers Pay Balance.

Continued from Page One

Cross, budget \$6,462.30, balance due \$602.30; Boy Scouts, budget \$4,682.80, balance due \$577.80; Family Welfare society, budget \$10,660.60, balance due \$375; King's Daughters' charity ward, budget \$1,950, balance due \$375; Kings Daughters' clinic, budget \$234, balance due \$17; Salvation Army, budget \$2,815.80, balance due \$190.80; St. Vincent De-Paul's society, budget \$2,950.46, balance due \$480.46; Y. M. C. A., budget \$14,812.20, balance due \$2,212.20.

In making the appeal, Wilbur H. Symes, president of the fund, made a brief statement regarding the fund and its activities.

"I again want to emphasize," Mr. Symes said, "the fact that the Community fund is an organization set up to collect necessary funds for operating certain agencies in the city which have had the support of the public in the past. Its primary object is to relieve the public of a succession of appeals for funds.

"After the campaign has been put on, and the various budgets have been determined and accepted by the agencies, the sole function of the fund becomes that of receiving these subscriptions, keeping adequate and accurate records and disbursing the funds in proper proportion to the agencies."

SOCIALISTS SCORE GAINS

Major Hoan Leads in Sweeping Victory at Milwaukee.

By The Associated Press

MILWAUKEE, Wis., April 6—Socialists made impressive gains in Milwaukee's city election yesterday, selecting Mayor Daniel W. Hoan by a large majority, capturing the city treasurer's office and increasing their hold in the city council.

Hoan, who has been mayor since 1910, apparently scored the greatest triumph of his political career. Returns from 89 of the city's 388 precincts gave him 20,879 votes against 12,655 for his non-partisan opponent, Joseph P. Carney.

A Socialist member of the school board, John W. Mudroch, was promoted to the city treasurer's office. Indications were that Socialists will increase measurably their strength in the city council.

DEMOCRATS CUT IN

Elect Officials in Former G. O. P. Strongholds in Illinois.

By The Associated Press

CHICAGO, April 6—Democrats stormed Republican strongholds in Illinois municipal and township elections yesterday and party leaders said they were jubilant at the showing.

In the once bloody suburb of Cicero, a Democratic landslide broke a Republican reign of 16 years and gave the Democrats every one of eight contested offices, including that of village president.

Incoming Democratic returns also showed Democratic inroads. At Nashville, a southern Illinois community, the entire Democratic ticket was voted into office for the first time in 25 years. Joliet, near Chicago, elected a Democratic township highway commissioner over a Republican for the first time in 40 years.

Cicero, a village of 66,000, was once a stronghold of Al Capone, and its elections were frequently marked by violence. With the gangster in jail, yesterday's election was peaceful, in marked contrast with the past.

HOOVER, ROOSEVELT WIN

Have Walkaway in New York State Primaries

By The Associated Press

ALBANY, N. Y., April 6—New York state's primary was a walk-away for the Roosevelt and Hoover tickets in the lone Democratic and two Republican contests.

In the Democratic contest, in the 41st congressional district in Buffalo, supporters of Governor Franklin D. Roosevelt swamped a ticket favorable to former Governor Alfred E. Smith by better than 2 to 1.

The Republican contests were in New York City and in Brooklyn. Delegates favorable to the re-election of President Hoover won by approximately 15 to 1 in one and by about 4 to 1 in the other district over supporters of Joseph L. Franco of Maryland.

DIME CHARGE LEADS TO SUIT FOR \$15,000

By United Press

TULSA, Okla.—A difference of 10 cents in the amount charged for a dish of apple dumplings over the amount marked on the menu resulted in a damage suit for \$15,000 here.

Miss Lois Roberts refused to pay 30 cents for the dish of apple dumplings, because, she said, it was listed on the menu for 20 cents. J. P. Reynolds, owner of the restaurant, had her arrested for disturbing the peace.

Miss Roberts was locked in the jail for the night and released the next morning. She brought suit for \$15,000 against Reynolds, alleging false arrest and malicious prosecution.

A jury awarded her \$15,000.

How do you Weigh Value?

An automobile is certainly not to be regarded as so much steel and other materials selling at so much a pound. It isn't wheelbase alone, or horsepower alone, or weight alone, or price alone—it isn't any one thing that determines a car's value, but the combination of everything.

That's why Chrysler value scales up bigger than any other value to be compared with it. Chrysler value is more extensive. Covers more things.

Outstanding engineering developments such as Floating Power engine mountings—that give Chrysler cars the most fascinating performance there is. Great conveniences like an Automatic Clutch, a Silent Gear Selector and Free Wheeling—that make Chrysler's effortless to drive.

Squeak-proof springs—dirt-proof frames—dash-proof gear shifting—dash-proof steering—self-equalizing hydraulic brakes—Camshaft brake drums, providing five times the wear of ordinary brakes—balanced wheels—value features that build up Chrysler value to where it simply cannot be matched in today's market.

The best demonstration of Chrysler value is a demonstration of the car itself. Drive one and see.

SIDEWALK REPAIR PROGRAM LIMITED

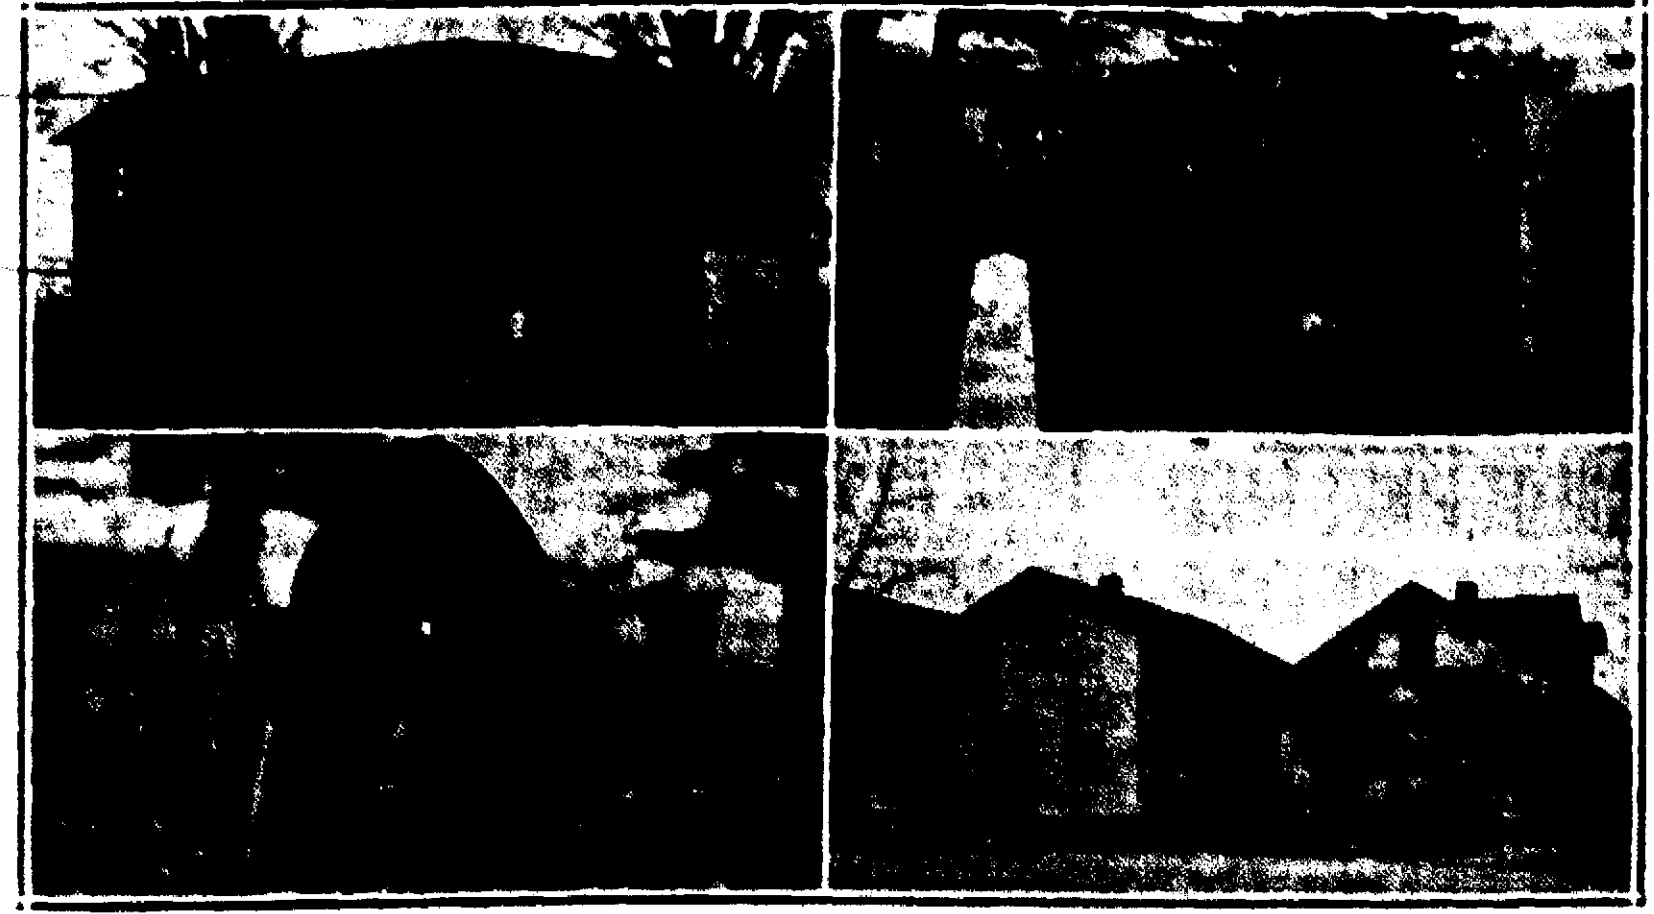

The city sidewalk program this year will be confined entirely to the elimination of hazardous spots. Service Director E. O. Uncapher said today.

Money for raising or rebuilding of sidewalks, unlike the repair of streets, can not be taken from the gasoline tax, but must come from the general fund, the service director said, and for this reason the work on sidewalks will be extremely limited this year.

A trip over the city for the purpose of checking places that have been reported as hazardous, was made by the service director yesterday.

Wyandot, Indian Trading Post on Pioneer Trail, at Century Mark

S. W. JURY
BY KARL R. McELROY
State Editor, The Star

Above are scenes of Wyandot, one of Ohio's pioneer villages. In the upper left is the old tavern at which pioneers stopped on their way through this section of the country. The first cemetery is pictured in the upper right and the lower left shows the headstones of the first person to be buried there—Abner Jury, an infant, in 1821. Now used as a dwelling and a business place, the two lower buildings are nearly 100 years old. They are owned by Ray Chance, who operates a general store. William H. McBride and S. W. Jury are two of Wyandot's oldest residents.

WILLIAM H. MCBRIDE

tavern as old as the village itself. It was a stopping place for the travel weary settlers.

It was here that Colonel Crawford spent the night before he was captured by the Indians and burned at the stake.

The first white man settled here in 1818 when John Kirby and his family took up plot of ground. Kirby ran the first store which stood on the site now occupied by the Jury grocery and hardware store.

Soon after Kirby settled here Jacob Coon brought his family into the rich territory. After this early start, Wyandot attracted many settlers. After the turn of 1820 and in the next 10 years Zachariah Welsh, Jesse Jury, Walter Woolsey, Isaac Longwell, William T. Howe, Abner Jury, Jacob Brewer, Henry Brown and Thomas Thompson settled here.

Bibler Ran Tavern

David Bibler played an important part in the early commercial history of the village. In addition to operating the tavern he owned a stillhouse, a grist mill and a saw mill and traded in livestock.

Two of the village's oldest men are William H. McBride and Samuel Winslow Jury.

McBride was born in Crawford county Aug. 12, 1846, the son of Joseph and Rebecca McBride. His parents moved to Wyandot four weeks after his birth. He remembers the village when it was made up of log houses, brush fences and mud roads. He also recalls seeing Indians from some of the tribes living near here.

Jury was the son of two of the first settlers in the district—Abner and Priscilla Jury. He was born March 23, 1848. He makes his home in the old tavern, which has been turned into a dwelling. He owns Walnut lake and his hobby is collecting curios.

Two miles west of here is a little cemetery, its tombstones blackened and eaten away by the elements. This was the first burial ground for the early settlers. A child, who died in 1821, was the first person to be buried there.

Population Declining

The population of Wyandot is less than half of what it was 60 years ago, census figures show. In 1870, 175 persons lived here and the 1930 census placed the population at 82.

Soon after the village began to take form, the settlers turned their attention to education of their children. The first school was in the log cabin door yard of Thomas Terry, with Ethan Terry as the first schoolmaster. In 1827 a log cabin was made into a school.

The Methodists organized in 1835 and in 1838 built their first church.

Only one or two landmarks remain of the early days of the pioneer. Many of them have undergone the changes that mark the progress of civilization and others were torn down.

Amid the trees, Wyandot, however, retains much of the atmosphere of these early days. The wind sighing through the trees is like the whispering of those sturdy ancestors as they bravely fought in the darkness for their small homesteads.

The Stars Say— For Thursday, April 4

A DAY of unusual activity, enterprise and notable occurrences may be looked for, judging by the strong position of Uranus parallel with Sol. This favors sudden and quite unforeseen events of far reaching importance on the destinies. Assisted by a trine aspect between the moon and Neptune, planet of innovation, novelty, intrigue, subtlety, the marvelous and fantastic. Under this rule the unusual may be expected in all affairs with obstacle or impediment offered by Saturn. Private matters are happily aspected.

Those whose birthday it is may anticipate a year of the sudden, unusual and unconventional with important change, much enterprise and a possible affiliation with close corporations, secret societies, or through diplomacy or intrigue. There may be obstacles, but generally the forecast is for success with personal happiness and satisfaction. A child born on this day may be clever, of unusual lines, of much initiative and determination to surmount difficulties, and should reach prominent position in life.

For instruction as well as entertainment a photograph and projector have been combined, still pictures shown on a screen being automatically changed at nine second intervals.

23 MINISTERS HERE FOR MEET

District Christian Association Holds Session at Marion Church Today.

Twenty-three ministers of the Eighth Ohio District Christian Ministers association, met this morning at Central Christian church for a monthly discussion session.

Rev. H. W. Lyons of Danville, O., presented a paper developing the subject, "The Prayer Life of the Minister."

Representatives from each of the eight counties in the district were expected for the afternoon's program which was open to the public. The eight counties in the district are Ashland, Richland, Wayne, Holmes, Morrow, Crawford, Knox and Marion.

Rev. Mr. Lyons followed the points in the Lord's prayer and applied them to the life experience of a minister. He said:

"The minister is as human as all men, and we have problems that may grow into troubles in life. If we are acquainted with God through prayer we can conquer every foe and can win all the battles of life in God's way. If we are not acquainted with God through prayer, we shall be like a rebellious child, ashamed to go to its parent when in need."

Business of the district was transacted in a short business period at 10:30 a. m. Rev. O. L. Hull of the Ashland Church of Christ, president of the association, presided at the business period.

The ministers joined in a fellowship luncheon at noon at the First Presbyterian church.

This afternoon was devoted to an informal program of interest to laymen as well as the ministers. Dr. Charles Martin Layman, associate professor of English Bible at Ohio Wesleyan university, was scheduled to deliver an address at 1:30 p. m. on the subject, "Values in the Gospel of John." Rev. H. R. Allgood of Marion led devotions.

HERE IS CAPITAL OF 'HAPPYLAND'

Trenton, Neb., Has Treasury Surplus and No Taxes.

TRENTON, Neb., April 6.—From the standpoint of money and taxes, Trenton was a "heaven" on earth today.

The villagers won't have to pay any taxes for at least another year. This was decided yesterday when they voted on the question as to whether they should be taxed. Their answer was "no."

And as to money, officials said, the village had \$10,000 surplus and no place to invest it.

They credited the municipality-owned utilities with having provided more than enough money to meet the city's needs.

And to make matters better electric light rates were reduced 25 per cent the other day.

MODERN PIED PIPER

Indiana Dog Catcher Uses Radio To Lure Canine Victims.

By The Associated Press. HAMMOND, Ind., April 6.—A pied piper with modern ideas is Walter Wittig, Hammond's official dog catcher.

He uses the radio to lure his victims. He started yesterday by equipping his wagon with a radio, and every time a dog would stop, look and listen, it would be just too bad, Wittig said his daily catch had been doubled.

STUDENT STRIKERS CLASH AT COLUMBIA

of the library building to urge students to join the strike. Some of them were targets for barrages of eggs thrown by opponents of the strike.

The scuffle over the strip of crepe started shortly after pickets took up their posts at the entrances to the university buildings. About 200 students went to the library steps instead of to their classes. Arthur Goldschmidt, a member of the social problems club, which sponsored the one-day strike, mounted the pedestal of the statue.

"It is my duty to inform you that you are going to gag alive," he shouted.

Then some one threw a bunch of spitting firecrackers into the crowd, which momentarily scattered. A group of strikers then produced the crepe and an elderly watchman protested and attempted to take the crepe from the students.

Scrimmage Is Lively

About 12 athletes, led by Shelley Wood, a senior and substitute member of the crew, went to the support of the watchman, setting one end of the crepe. About 25 strikers grabbed the other end and the scrimmage followed. Some of the students were knocked down. Howard Westwood, a law student of Tecumseh, Neb., alone retained his hold on the crepe and was dragged more than 200 feet. His clothes were torn, but he got up smiling when forced finally to relinquish his grip. The athletes disappeared with the crepe.

Fist fights occurred spasmodically elsewhere on the campus. Several of the professors today called off their classes because of the strike, and others announced examinations had been postponed.

PLAY TO BE GIVEN ON LODGE PROGRAM

"Vindicated" Will Feature Bicentennial Exercises at Masonic Temple.

A play, "Vindicated," will be given on the George Washington bicentennial program of Lydia Chapter No. 83, Order of Eastern Star Thursday at 8:15 in Masonic temple.

Mrs. D. E. Montgomery is chairman of the chapter bicentennial committee. A dress rehearsal will be held tonight at the temple. Last night, following a rehearsal, refreshments were served.

The program will consist of music, the minut, and the play. A small admission cost will be charged to cover the cost of the rental of the elaborate colonial costumes of the play.

The program will open with a piano solo by Mrs. A. M. Hunter, after which the national emblem will be presented, preceded by an escort of honor. Mrs. A. H. Koons will play several accordion numbers.

The minut will be danced by Misses Rosanna Crow, Elizabeth Clark, Kathryn Eymon and Lucille Hunt. Marjorie Ann Kinsinger will give a reading. Mrs. Valeria Stuckert will be in charge of make-up for the play cast.

DAUGHTER BORN TO GLORIA SWANSON

By The Associated Press. LONDON, April 6.—Gloria Swanson and her husband, Michael Farmer, wealthy Irish sportsman, were getting acquainted today with a new daughter, born last night at their home in the fashionable Mayfair section of London.

The noted film actress and the baby were both very well. Mr. Farmer said. The baby was born a few hours after the parents had moved into their new home from a hotel.

It is Miss Swanson's second daughter. Her first child, Gloria, daughter of her second husband, Herbert Sornhorn, film executive, was born 10 years ago. She also has an adopted daughter.

She and Farmer were secretly married at Elmford, N. Y. last August.

OFFICERS ELECTED BY P. T. A. GROUP

Mrs. Ray Schlagenhauf Named by Oakland Heights Members.

Mrs. Ray Schlagenhauf was elected president at the meeting of the Oakland Heights Parent-Teachers' association yesterday afternoon at the school building. Devotionals were conducted by Mrs. G. E. Jones and children of the second grade entertained with a song. Others taking part in the program were Mrs. J. E. Frew and Mrs. W. C. Seranton.

Mrs. Schlagenhauf will be assisted by Miss Martha Smallwood, vice president. Mrs. Homer Ebert, secretary. Mrs. Wilfred Orton, treasurer. It was planned to conduct a paper drive in the near future and sponsor a penny supper May 6. The picture was awarded children of the second grade for having the largest number of mothers in attendance. The next meeting will be May 3 at 7:30 p. m.

OFFICER NAMED BY MEMBERS OF LODGE

Melvin L. Reichtel was elected out-guard at the regular meeting of Canby Lodge No. 31, Knights of Pythias, last night. He will fill the vacancy caused by the moving up of all officers of the lodge following the death of Chancellor Commander Lewis C. Meddies.

A committee composed of Joseph M. Justice, Henry O'Dowd and Carl L. Rieger were appointed to prepare resolutions on the death of the chancellor commander. Two applications for membership were received.

Red Men Meet.

Routine business was transacted and arrangements completed for the benefit play to be given next Tuesday night at the meeting of the Red Men last night in the lodge hall. The play, "The Third Customer," will be sponsored jointly by Minnetonka council and the lodge and will be given in the lodge hall. Vaudeville sketches will be presented between the acts. A short business session will be held in the lodge diningroom preceding the play.

Chicago Woman Marries Same Man Three Times Since 1922.

By The Associated Press. CHICAGO, April 6.—Mrs. Emma Minoranas of suburban Cicero married the same man three times. And the man she married three times is the same fellow she has used three times for separation.

John is his name. She married him in 1922. In 1926 she divorced him on a charge of cruelty. Five months later she remarried him, but divorced him again in March of 1929. On December 4, 1930, she married John again.

And yesterday she filed suit for separate maintenance, alleging desertion.

CHECK FINDS FALSE ENTRIES OF KRUEGER

Accountants Reveal True Condition of Swedish Match Firm's Books.

STOCKHOLM, April 6.—Falsifications of the books of the Krueger & Toll company, made under the direction of Ivar Krueger, Swedish match king, who committed suicide at Paris recently, have been discovered by accountants, according to an auditor's report just issued.

The report said entries were made in the books which eliminated substantial balances owing to the parent company by Krueger and subsidiary companies, while liabilities of other subsidiaries also were eliminated.

In some instances, auditors said, the book assets were entirely fictitious.

The report said the manipulation seemed also to extend to the profit and loss accounts of the different companies concerned and that the profits for 1930 were fictitiously increased.

A firm of English accountants made the check.

Auditors of the board of Krueger & Toll are seeking a way, the report said, to liquidate the company in such a manner that interests of creditors will be safeguarded.

DE MOLAY QUINTET HONORED BY CIRCLE

150 Attend Banquet at Temple for Members of Championship Team.

Covers were placed for 150 members and guests at the banquet of the De Molay Mothers' circle in honor of the De Molay basketball team, winners of the state championship, last night at the Masonic temple. Guests included members of De Molay chapter, their mothers, members of the advisory board and members of the Toledo chapter.

Francis Soos, master councillor of De Molay chapter, presided as toastmaster and the address of the evening was given by Theodore H. Little, field representative of the grand council, Order of De Molay, of Kansas City, Mo.

Ernest McCoy entertained with several numbers on the marimba and greetings were extended by Mrs. Henry S. Kramer. Talks were given by E. A. Whitcomb, chairman of the advisory board, "Dad" Frank Little and "Dad" Walter Guthrie on the work of the organization. The basketball trophy was presented by Paul Hunt and was accepted by Francis Soos.

William Johnson, Hermie Waldner and Robert Gillespie of Toledo extended an invitation to the local chapter to attend the state convocation there Aug. 29, 30 and 31.

Members of the Mothers circle will meet Tuesday afternoon in the Masonic temple.

ENROLL 2 MEMBERS AT W. C. T. U. MEETING

Mrs. V. G. Hinds and Mrs. Carl Tozzer were enrolled as new members at the meeting of the Lillian Stevens W. C. T. U. yesterday afternoon at the home of Mrs. J. J. Stafford of 354 Hane avenue. During the business session plans were made to present a Mother's day program at the next meeting May 3 at the Waddell Ladies' home.

Guests included Mrs. V. G. Hinds, Mrs. Frank Burns, Mrs. Carl Tozzer and Mrs. Anna Eberhart. Mrs. A. L. Wood entertained with a vocal solo accompanied at the piano by Mrs. J. G. Hinds and Mrs. E. J. Hollandshead gave a paper. A report of the conference held at Columbus last month was given by Mrs. A. O. Jennings, county president.

SCHOOLS WILL BE CLOSED ON FRIDAY

Marion public schools will be closed Friday to permit the teachers and principals to attend a state conference sponsored by Ohio State university. The conference will open Thursday and continue through Saturday.

The schools did not close for the Central Ohio educators' meeting in Dayton last fall, and teachers voted last week to attend the Ohio State university conference.

To Attend Services.

An invitation was accepted to attend the Memorial Sunday services May 29 at Trinity Baptist church at the meeting of Cooper Post No. 117, G. A. R. Monday afternoon at the American Legion dugout. The meeting was attended by Commander Francis Layton and Comrades Sess and Johnson. Guests included members of the patriotic auxiliaries. The next meeting will be May 2.

Man Fined \$50.

Lam Layman of Bennett street was fined \$50 and costs by Municipal Judge W. R. Martin this morning when he pleaded guilty to a disorderly conduct charge brought by his wife, Blanch Layman.

VETS COMBAT MOB IN NEW FOUNDLAND

Ex-Service Men on Duty Pending Move Toward New Government.

By The Associated Press. ST. JOHN'S, N. F., April 6.—New Foundland was expected to resort to a national government today to placate the mob which yesterday smashed the windows of the house of assembly and caused the precipitous flight into hiding of Premier Sir Richard Squires.

Resignation of the Squires government, the promise of which halted the angry mob's determination to throw the premier into the harbor, had not been received at 10 a. m. today.

The suggested national government would be headed by F. C. Alvirie, present opposition leader. Sir William Coaker, minister without portfolio in the Squires cabinet, was expected to advise Governor Sir John Middleton to ask the Squires resignation.

War Veterans on Duty

Meanwhile, with the political future of the dominion in doubt, war veterans were banded to combat the mob away.

The ex-service men were called on to check pillaging after 10,000 men, women and children, howling that they would drown Sir Richard Squires, prime minister, in the harbor, conquered police and partly wrecked the house of assembly of this British dominion. Liquor stores were looted. Several persons were hurt.

Rescued by three clergymen, Sir Richard took refuge in an undisturbed place and the mob was told he and his government had despatched their resignations.

The riot culminated a series of troubles, financial and otherwise, which rocked this colony for months.

Previous Attack Made

Once before, a mob, shouting demands for increased doles for the jobless, attacked and roughly handled the premier.

The disturbance yesterday resulted from a charge that Sir Richard falsified council minutes to facilitate transfer of public money to a political fund.

Ten thousand strong, the citizens marched to the colonial building crying for a "proper investigation."

The mob grew sullen.

"Mounties" tried to push the crowd back. A ragged man tore a policeman's cap off. Drawing batons, the officers belabored the crowd. Flipping sticks and stones, the mob forced police to retreat. They smashed almost every window in the building, crashed down doors and tossed every movable object out of the basement, even the piano.

DEATH DECREED FOR 2 RUSSIAN YOUTHS

By The Associated Press. MOSCOW, April 6.—Death before a firing squad faces Judas Stern and Sergei Vassiliev today, two Russian youths convicted of attempting to assassinate Dr. Fritz Twardowski, counsellor of the German embassy.

The death penalty was imposed by the Soviet supreme court after a two-day trial during which the two young men confessed they shot the German embassy official.

During the trial the prosecutor drew an admission from Vassiliev that the latter had been influenced by a woman, Mme. Olga Shekova, who was executed in 1929 for shooting a Red army officer. Vassiliev admitted Mme. Shekova urged direct counter-revolutionary activity.

DEMOCRATIC LEAD IN HOUSE BOOSTED

By The Associated Press. WASHINGTON, April 6.—A decision which brought to a stop the congressional career of Peter C. Granata of Chicago, gave the Democrats of the house today a full ten-vote lead over their Republican enemies.

Mr. Granata was voted out and Stanley H. Kunz was voted in by the house yesterday. It was a decision on an election contest brought by the latter, the Democratic congressional candidate of the Eighth Illinois district, against the Republican who had been seated at the outset of the session on the strength of his certificate of election.

The standing of the parties in the house is: Democrats 221; Republicans 212; Farmer-Labor 1; vacancies 2.

ROAD PROJECTS TO PROVIDE 9,000 JOBS

Ohio Unemployed To Benefit by Highway Work Within Three Weeks.

By The Associated Press. COLUMBUS, O., April 6.—Approximately 9,000 unemployed persons will be given jobs within the next three weeks, when the state highway department's 1932 road building program swings into action, State Highway Director O. W. Merrill said today.

Already the weatherman has fired a telling shot at unemployment and contractors throughout the state are getting under way with various projects involving an expenditure of \$2,500,000.

A \$3,412,053 contract letting, scheduled for April 15, will supply

work for several hundred unemployed men. Contractors required to select 80 per cent of labor from a list of relief committees of the which the job is located.

Under a minimum wage ment between the highway department and the laborers will receive from cents an hour. Highway, estimated that 85 per cent approximate \$6,000,000 ment project program will to laborers.

POLICE START DRIVE TO PROTECT KIDDIES

Chief Intends To Break Up Skating in Street; Cites Danger of Practice.

A campaign to prevent injury to small boys and girls who have been skating in the street, was opened in earnest by Police Chief W. E. Marks last night when 15 skaters, taken to police headquarters, were deprived of their skates.

There will be no compromising this year, the chief declared. Skates will be taken from every person found skating on the streets. "We are determined to break up this dangerous practice," the chief said.

The practice is equally bad in all parts of the city, according to the chief. On some streets large groups of boys and girls skate with utter indifference to automobile drivers, some making it a practice to hang on to passing cars, he said.

The chief also said he had been declared on drivers of automobiles and trucks who drive with their cut-outs open. This practice has become a decided nuisance, the chief said. "If necessary we will do as we are doing with the skaters, deprive them of their machines for a time, in order to put a stop to the practice," he warned.

OBSERVERS ON DUTY IN STRIKE SECTION

By The Associated Press. COLUMBUS, O., April 6.—Three Ohio National guard observers were on duty in the Muskingum county coal field today as a result of disorders in which striking miners were stoned by some 1,000 men said to be strikers from other districts.

Adjutant General Frank D. Henderson visited the field yesterday after Muskingum county authorities used tear gas bombs to break up disturbances. He was accompanied by Brig. Gen. Harold M. Bush of Columbus, who remained at Zanesville as an observer in cooperation with Major R. H. Drake, and Lieutenant Winans.

The adjutant general said, however, that present conditions do not warrant the use of troops.

ONE-POUND INFANT GETS DOLL CLOTHES

By The Associated Press. KANSAS CITY, Mo., April 6.—Garments from a doll's wardrobe were used today to clothe the tiny form of baby St. John, who weighed one pound at birth Monday night.

The doll clothes were presented to the parents, Mr. and Mrs. William St. John, by a small girl who expressed the hope that "these might help." Clothing provided by the parents for the event proved much too large.

The little chap is kept in an improvised packing box crib, a temperature of 82 degrees being maintained by hot water bottles. Warned by a physician that the infant needs rest, the parents have turned away hundreds of persons who wished to "take a peek at the baby."

A chemically treated wrapper has been invented to protect silverware from tarnishing when rolled in it.

Who Was First President? Honor Claimed by Three

WASHINGTON, D. C.—INS—Who was our first president—the commonly accepted George Washington, or John Hanson? "George Washington," the average man will say. But the John Hanson Memorial association and

a newly published volume, entitled "John Hanson, Our First President," declares Hanson and not Washington was our first Chief Executive.

However, if one comes right down to the real genesis, and sticks to the title "President," it was neither man, according to a University of Pennsylvania historian.

Peyton Randolph of Virginia, deserves that distinction, according to Dr. Herman V. Ames, professor of American constitutional history at the university.

Names Randolph

He points out that it was Peyton Randolph who was President of the first Continental congress, which met in Philadelphia from Sept. 5 to Oct. 26, 1774—seven years before John Hanson, a prominent Maryland patriot, was elected "President of the United States in Congress Assembled."

"Personally," says Dr. Ames, "I don't know why John Hanson is any more entitled to the designation of the first President than any other of the men who preceded him as president of congress. Any of them and there were several before him—is as worthy as he is to be so called."

"But none of them was President of the United States, as such. They hadn't any great executive power, such as was given to the President by the federal constitution under which, in 1789, Washington was elected President. It is pointed out that Hanson was given a house by the national government, but other presidents of congress before him were given houses and certain appropriations for entertainment."

Eliminates All

Continuing, Dr. Ames said: "I wouldn't consider any of them as Presidents in the true sense of the word. They were merely presiding officers over congress. Hanson is picked, no doubt, because he was the first President after the Articles of Confederation actually went into force in March, 1771. The articles were in process of formation and ratification for some time before that and other men had presided in turn, during those years."

Doctor Ames pointed out that Hanson was not one of the creators of the Articles of Confederation, as has sometimes been stated, but was merely active in securing Maryland's ratification of them.

Hanson, who was elected Nov. 5, 1781, as "President of the United States in Congress Assembled," served for a year. Then he retired owing to failing health. He died Nov. 27, 1783, as Oxen Hills, Md., having served as representative from Maryland in congress from 1781 until his death.

Native of Virginia

Peyton Randolph was born in Williamsburg, Va., in 1723. He became the king's attorney for the colony in 1747. Later he developed into a staunch supporter of the cause of freedom. He drew up Virginia's address to the king in 1764 against the passage of the Stamp Act and was elected a delegate to the First Continental Congress in Philadelphia, being chosen President when it convened. He died in Philadelphia, Oct. 22, 1775.

Incidentally, Hanson's claim as the first President brings attention to a document which he and approximately 80 other Maryland freeholders signed, supporting the Continental Congress in opposition to Great Britain's actions, and deciding to send soldiers to aid the Massachusetts Bay Colony against the British. The document was entitled: "Association of the Free-men of Maryland," and was dated July 26, 1775. It is now in Annapolis.

A photostatic copy of the historic document is in possession of James M. Bennett of Germantown, Pa., whose wife is a descendant of John Hanson.

LIFE SAVING HERO IS RETIRED AT 74
Lee of Government Service Has Notable Record.
National News Service
MARION—Captain W. G. Lee, 74 years of age, inspector of the commerce department, steamboat inspection service, Savannah, Ga., has been re-

tired at the age of 74. He was a holder of many medals for saving lives at sea, including the congressional medal of honor, which was awarded him in 1893.
Records show that Captain Lee rescued four persons in 1878 by leaping overboard from a steamer and bringing them, one by one, to the steamer's side. The last of the four sank a moment before Captain Lee reached his side and he had to dive under the surface to effect the rescue.
In 1880, Captain Lee received a gold medal for rescuing two children who fell overboard from the

steamer H. B. Plant, and three years later he was awarded another gold medal for saving three of four persons who were endangered as a boat capsized. It is said that he would have saved the fourth person, but Captain Lee was knocked unconscious by a chair thrown into the water.
Captain Lee's experience saving lives was not confined to humans. A mule, hitched to a wagon, backed off a Savannah pier. Captain Lee dove into the water and at a depth estimated at 25 feet unhitched the mule which then completed the rescue by swimming to a point where it could be helped from the water.

Suppose you do overlook your stomach with those things that bring on acidity? Phillips' Milk of Magnesia will neutralize many times its volume in acid. Just take two spoonfuls before and after such over-indulgence. It's a very simple way to prevent those miserable mornings which follow too much to eat and drink.
When you over-indulge, eating, drinking, smoking, don't suffer for hours! Nature will restore a proper alkaline balance in time but Phillips' Milk of Magnesia acts immediately. A creamy, pleasant-tasting emulsion that sweetens the stomach, dispels that sour gas, and relieves the nausea and headache, and feeling of biliousness, due to overdoing. Phillips' mild laxative properties always help the bowels at such times.
Make sure it's genuine. The signature of Chas. H. Phillips on the wrapper and bottle will tell you it's the real product endorsed by the medical profession. Less perfect preparations do not act the same.
For a Healthy Mouth
Use Phillips' Milk of Magnesia as a mouthwash every evening before retiring. Use Phillips' Dental Magnesia a superior tooth paste, to keep the teeth clean and white.

"SHE OVERLOOKS THE LITTLE THINGS!"
Poor Mrs. Twiddy, no longer does she make a clean sweep as before. Mr. Twiddy just CAN'T understand it — although the answer is simple. You see, Mrs. Twiddy now buys all her housefurnishings at our "ECONOMY BASEMENT" at prices that enable her to keep within the family budget — thereby restoring the MOTIVE for petty larceny! Why don't all you thrifty housewives follow Mrs. Twiddy's example and get the kind of furnishings you have always wanted from our "ECONOMY BASEMENT"? The quality of the merchandise is HIGH — we wouldn't think of selling any other, but in order to meet present economic conditions, we moved a large part of our stock to our light and airy "ECONOMY BASEMENT" and priced it at AMAZINGLY LOW figures. Our time payment plan makes it even easier to buy QUALITY house furnishings... It's yours for the asking!

Club Entertained
at Dinner Party

MR. AND MRS. F. C. STEFFEN of 484 Summit street were host and hostess to the Bridge Club at dinner party at the Hotel Harding last evening. A bowl of colorful sweet peas centered the table at Ringers Inn where Mr. and Mrs. Steffen entertained at dinner. Later tables were arranged for cards at the Steffen home. Honors for high scores were won by Mrs. W. N. Sims, Mrs. Raymond W. Furnis, Mr. Steffen and Robert Miah. The club members will be guests of Mr. and Mrs. Raymond W. Furnis at their home on Baker street in two weeks.

YELLOW JONQUILS formed an attractive decorative note for the table at the dinner given for members of the Duo Dek club last evening at the Mouz tea room southeast of the city. The table was lighted with two candles held in yellow candlesticks tied with green tulle. Following the dinner,

tables were filled for bridge, honours going to Mrs. Garnet Cross and Mrs. Mabel Wilson. The club will meet in two weeks with Mrs. Floyd Peters of Oak street.

Pupils Give
Piano Recital

Approximately 100 parents and friends of the younger piano pupils of Miss Grace Durfee, attended a recital last evening at Hotel Harding. The older pupils will give a recital on April 12.

The Allegro club orchestra which played a closing number, "Toy Symphony" by Haydn, was composed of the following players: Nancy Warner and Doris Davis, horns; Marion Todd, bells; Anna Jane Stillings, triangle; Betty Moore, trumpet; Dorothy McClure, rattle; Jimmy Moore, drum; Morris Kline, tambourine; Joseph Todd, "rickety and owl"; Mary Pottorf and Julia Ann Walsh, "cuckoo"; Marjorie Moore and Marjorie Shrock, "nightingales"; and Lucille Ballinger, "quill." The club was assisted by Miss Ethel Fay Locker, soprano; Miss Martha Weaver, contralto; and Miss Durfee at the piano. Barbara Smith opened the pro-

gram with two numbers, "A Springtime Garden" by Rogers, illustrated by Jean Olewiler as a crocus, Rebecca LaRue as a Johnny jump-up and Marion Todd as a bride wreath, and "Dolly's Cradle Song" by Aleock. The program continued as follows:

Marjorie Moore, "A Rustic Dance" by Chenoweth; Doris Davis, "Lullaby" by Lemon; Mary Pottorf, "Bacchante" by Rodgers; Lucille Ballinger, "Angel's Dream" by O'Neel; Joseph Todd, "Capriccio" by Thomas; Nancy Warner, "The Wood-Nymph's Harp" by Row; Dorothy McClure, "Waiter" by Dvorak; Morris Kline, "Prelude in A Minor" by Gounod and "Prelude" by Kern; Julia Ann Walsh, "Cachucha" by Frail.

Club Studies
Life of Sousa

The life and compositions of John Phillip Sousa were studied by the Mozart Musical Musketiers at a meeting yesterday afternoon at the south Vine street studio of their teacher, Miss Mildred Duffey. A paper, "Sousa's Career as a Composer," was contributed by Mary Toby. Betty Roberts read a paper on the subject, "Sousa's Later Life and Compositions." Each member contributed items of interest in his life, and in addition, Elberta Titus read a poem, "Lost Music," written by Miss Duffey. Patricia Fulk gave a paper on the subject, "The Interpretation of Sousa's Compositions." Thursday night the club will present a program of piano and vocal numbers at the Walden Lodge home. A guest day meeting will be held in two weeks, at which time the life of MacDowell will be studied.

Tips on CONTRACT

UNWARRANTED FORCING
TAKEOUTS

By Tom O'Neill

Forcing takeouts, that is, bids higher than necessary to overcall partner, usually require three honor tricks or more.

Such a takeout asks that partner keep on bidding at least until a game contract is reached. A forcing takeout on mere length alone, without quick tricks, invites severe penalties.

The principle may be illustrated by a hand which, as played by Lieut. Alfred M. Gruenther, well known tournament referee, resulted in a slam through the help of the defense, good distribution and other factors. The lieutenant was a pinch hitter for a competitor who was temporarily absent from the table.

The hands:

NORTH		EAST	
♠ 9 4	♥ 6 5 4 3	♠ 8 5 3	♥ K 9 8
♦ K 10 9	♣ A K 10 9	♦ J 2	♣ J 9 8 7
WEST		SOUTH	
♠ 7 2	♥ A Q 5 4 3	♠ A K J 7 2	♥ A
♦ A Q 5 4 3	♣ Q 10 6 5 3	♦ A 8 7 6	♣ A K 4 2

The bidding went: south one spade, west pass, north three hearts, east pass, south three spades, west pass, north four spades, east pass, south six spades. After the forcing takeout Gruenther rebid his spades to show strength and when north indicated

CITY OKAYS \$43,000 ROAD IMPROVEMENT

30-Foot Brick Pavement Planned for Highway Running Through Bucyrus.

Special to The Star.
BUCYRUS, April 6.—First steps towards the improvement of nearly a mile of the Columbus-Sandusky highway from the corporation line to the intersection of the Marion road and south Sandusky avenue were taken by city council Tuesday night when the city agreed to pay 50 per cent of the cost, estimated to cost \$43,750, for the highway which will be a 30-foot brick construction.

A report of receipts and expenditures of Bucyrus City hospital since it was taken over by the city Jan. 1, showed total expenditure for three months of \$3,941.63 and receipts of \$4,158.06.

EDITH MARY EVANS WINS HIGH GRADE

MT. GILEAD, April 6.—Edith Mary Evans, a pupil of the Harrison township rural school, attained the highest mark in the eighth grade examinations held at Mt. Gilead Saturday. H. O. Hanna, county superintendent, announced her grade was 158 out of a possible 200. Seventy-four pupils from 37 one-room schools in Harrison county took the tests. Second was Joseph R. Worthington of Gilead township, 176. Third, Warren McClelland, Congress township, 153; fourth, Ruth Irene Fulton, Perry township, 150, and fifth, Alta E. Dawson, Franklin township, 148. Arithmetic, English, science, and history were included in the examination which is held annually.

MARION STUDENTS IN NEW MUSIC GROUP

Pupils at North Main Street School Form Jubilee Singers.
Continued from Page One

school in general. To be privileged to sing meant that grades must be kept up and that conduct must be exemplary.

Since the first rehearsals with Miss Marie Hammer of the faculty as director and Miss Cunningham as supervisor, the Jubilee singers have a repertoire of southern songs and spirituals.

"Get Away from that Cornfield," "Swing Low, Sweet Chariot," "Peter Go Ring Dem Bells," "A Little More Faith in Jesus" and "Nobody Knows de Trouble I've Seen" are their best songs.

"Roll, Jordan, Roll," and a Stephen Foster song, "Camp Town Races," are now in rehearsal. Of course, these boys and girls know "Dixie," "Way Down Upon the Swannee River," "Massa in de Cold, Cold Ground," and all the other favorites of the south, but their "program" pieces are the spirituals.

Love To Sing
They are always on call for rehearsals. At any time they can be gathered together, only too glad to sing. They love to sing—it is in their very blood, and their voices are clear and sweet.

Thomas Watson, "Tommy" to all his friends, is living with his grandfather, Rev. T. M. Sellers of north State street. He's the soloist, possessor of a clear, high soprano voice.

"Tommy" plays a banjo too, but neither he nor the Parent Teacher association can afford to buy one so the Jubilee Singers do without this finishing touch to their music group.

Harriet and Charles Booker are the children of Mr. and Mrs. Harry Booker of Bryant street. Harriet is in the seventh grade and Charles is a sixth grade pupil.

Mr. and Mrs. Roy Williams of 196 Harrison street are the parents of Robert, in the sixth grade, and Thelma in the fifth grade. Marjory is the daughter of Mrs. Vesta Cloud of 945 north State street. Dorothy, a seventh grade student, is the daughter Mrs. Edna Walker of north State street and Betha, in the fifth grade, is the daughter of Mr. and Mrs. William Clements of 1014 north State street. Lester Reed, a fifth grade student, is the son of Mrs. Roscoe Lucas of 915 north State street.

Mrs. Oscar Roe of north State street a member of the school P. T. A. is the official accompanist, but Anna May Oakhead helps sometimes in the afternoon when Mrs. Roe is unable to rehearse.

As soon as the group learns to sing three part numbers, Miss Cunningham plans to have them sing accompanied, as their ancestors sang in their cabins down in Dixie.

For years this concern has stood before the public, an institution built on the foundation of confidence, strict integrity and fair dealing, stating the truth in its advertisements and inculcating into its employees the necessity of truthfully representing the merchandise offered for sale. Always leaders in establishing the tenets of high and scrupulous frankness in business and unrelentingly maintaining this leadership all these years. Only a few things improve with age, service being rendered continually over a period of years becomes better and better as a result of studying a community's needs. A firm may be ever so courteous, ever so anxious to please, but unless its merchandise is of dependable quality, its service does not count for much.

WHAT IS A BARGAIN?

In these days, when we read so much about bar-
gains, Bargains, BARGAINS—it is well to con-
sider what comprises "value" and the reputation
of the store advertising them. We believe a bar-
gain to be an unusual offering caused by an un-
usual event or condition that actually forces a
reduction in price with disregard to profit. On
such an occasion one can actually buy Lennon
QUALITY at a sacrifice. This is an occasion
where we must dispose of thousands of dollars
worth of high-grade merchandise to meet pres-

A Plain Statement of Facts

A business that never ventures from the beaten path
cannot develop its full possibilities. Real progress
begins where rules leave off. Today the entire busi-
ness world is readjusting itself to meet the con-
dition of a new period. The time has come when we
find it absolutely imperative; compulsory, if you
please, to re-adjust our stocks to meet with today's
existing condition. Our great store and warehouse
is crowded with thousands of dollars worth of high
grade merchandise and more arriving daily. Dra-
matic action is being taken, and notwithstanding the
inevitable loss of profits. It is a sale with but one
object—one aim—THE COMPLETE DISPOSAL OF
OUR STOCKS AT ANY PRICE.

Spring Grid Call Brings Out 50 Harding Candidates

BOHYER WILL DRILL PRESIDENT HOPEFULS FOR NEXT SIX WEEKS

Red-Black Mentor Must Find Replacements for Nearly Dozen Veterans.

Almost half a hundred candidates for berths on the 1933 edition of the Harding High school football team commenced a six week period of spring practice yesterday afternoon on the silk mills practice field. A few more are expected to report within the next few days and this squad will be kept for the entire period.

Aspirants for positions who have been issued equipment are as follows: Harold Austin, King Crisinger, John Canterbury, Rudy Findling, Gene Hudson, George Mason, Pat Murphy, James Martin, Louis Mahla, Bill McKay, Glen Obenour, Ronald Perry, Don Quinlan, Harold Seckel, Bob Walsh, Maurice Whitcomb, Wilfred Weaver, Ronny Van Sney, Walter Haberman, Bill Souther, Jack Bray, Thomas Conon, Chester Evans, Robert Eyer, Lowell Fritzenberger, Bob Foltz, Bill Foster, John Guthrie, Billy Haro, Oliver Hagman, Bob Keller, Bob Mautz, Carl McDaniel, Bill Stark, Don Spicer, Clarence Smith, Carl Eckenhammer, and Joseph Snyder.

Hops for Better Showing

Out of the crop of material which reported yesterday Bohyer hopes to unearth sufficient talent to gain a high position in the North Central Ohio standings next fall. For the last two seasons the Presidents have finished the season in fifth place, only one notch out of the cellar. Macfield has grabbed the championship in both of the last two seasons.

Confronting Bohyer is the task of replacing a large number of regulars who are lost by graduation this season. However, the plight is not as bad as it would seem on first glance for there is a large supply of last season's reserve material on hand which should furnish talent enough to fill all of the vacant positions.

Missing from the squad of last season when next fall rolls around will be such important cogs as Lindsey, Carl, Morgan, backs; Ling, Clay, Clark, Williams, and Jevans, linemen.

While picking players for the team of next fall is at best a decidedly hazardous proposition at present, there are several individuals on the squad who now loom as candidates for positions. In the backfield, Bob Keller, veteran of two years, is almost certain to earn a post. Maury Whitcomb, a sophomore, appears to have a chance of becoming the best quarterback which Harding has had in several years.

Other Prospects

John Guthrie, out most of last season with injuries, also looks like varsity timber. On the line, Hagan, McDaniel, Foltz, Fritzenberger and Bray are all expected to display decided improvement over last season. There is a strong chance that some linemen may be made over into backfield men and vice versa. Carl McDaniel, an end last season, looks like a possible fullback next season. The backfield has been handicapped for several seasons by the lack of a good heavy fullback to drive opposing lines for much needed yardage.

EXCAVATOR NINE TO PRACTICE THURSDAY

The Excavator-Alloy recreation baseball team will hold its initial practice Thursday of this week at 1 p. m. at the Silk Mills field. George Johnson is acting manager of the Industrial league team until a new one is named by the club.

Prospective players are urged to report Thursday for a trial. Under the new commission ruling all those who are not working but who played with the team while employed there last season are eligible to play this year.

Bishops Name Pilot.

Probably the only father and son act in football here will be put on this summer as a result of the action of the Epworth Bishops last night when the club organized for the 1932 season. Jim Linggo, Sr. was named manager of the club and Jim Linggo, Jr. was elected captain. Jimmy Jr. is an outfielder, patrolling the center gardens. The club will start practice within a short time and will compete again this year in the No. 1 Sunday school league where it finished in fourth place last year.

BY BOB KIRKPATRICK

Booster Club Plans

With the advent of spring weather, the Harding High school booster club is preparing to relaunch activity in the construction of the new Harding High school athletic field in southeast Marion near Willow and Bradford streets. Attorney John Wiedemann, secretary of the organization reported today that the club will meet with a few days to take up plans for the continuance of work on the project.

Despite some disheartening setbacks the organization is still hopeful the field will be ready for use next fall. Financial difficulties, due to the closing of the Marion National Bank, have put a distinct crimp into the financial standing of the organization and more money must be raised if the project is to be carried to immediate completion. The securing of labor for the actual construction work is not expected to prove particularly difficult but money must be found for the purchase of necessary materials.

This Might Help

While the booster club is going about its task of building a new athletic field for Harding, Coach D. N. Bohyer will be putting his 1932 grid prospects through daily workouts at the practice field in the rear of the silk mills. Bohyer will take a field of about half a hundred candidates to the practice field today for the first of a series of workouts which will probably extend through a five or six week period. And it might not be such bad football training for some of Bohyer's proteges to get a job swinging a pick on the new athletic field construction work.

I have an idea a lot of opposing North Central Ohio football players would feel the effects next season of some good hard work on the part of Harding's grid hopefuls.

Wanted—New Players

If there are individuals who believe the depression is going to have any ill effects on the coming football season here, I can't share in the belief. On looking over those entry lists which to date have been turned into Elmer Shaw, secretary of the city softball board, it is obvious that practically every team in the city is working overtime in an effort to uncover new player talent.

This is especially noticeable in the Industrial and Commercial leagues where players can shift about from season to season. In the Sunday school circuit a player cannot change teams without stating out of the game for a season so with the exception of strictly new players, these lineups do not change much from year to year. However, even in the church loops a number of lineup changes loom as probable. All of which leads to the belief that the coming season will see some of the best races ever staged here for possession of the four league pennants and for the championship of the Little World's series which comes after the close of the regular season.

PLAYERS NAMED IN DAWES CUP LINEUP

By The Associated Press

NEW YORK, April 6.—The burden of American Davis cup tennis hopes in the first round contest with Canada will be shouldered by H. Ellsworth Vines, Frank Shields, John Van Ryn and Wilmer Allison. Vines, Shields and Van Ryn hold three of the first four places in the National singles rankings and Allison and Van Ryn rate as the No. 1 doubles combination of the nation.

Allison, originally slated for an alternate's position on the squad, moved up to the "varsity" when George M. Lott announced that business would prevent him from participating in Davis cup play this year.

Undoubtedly Vines and Shields will be picked to play singles against Canada with Van Ryn and Allison confining their attention to the doubles.

Only two regulars will be lost by graduation from the championship University of California basketball team.

New Field Proposed

After having been played on for only a single complete season the McKinley park baseball diamond appears likely to go into the discard. If suggestions already presented before the city recreation baseball commission are carried into action the softball leagues will shift to a new diamond at the scene of the new Harding High athletic field near Willow and Bradford streets. This would be one of the four playgrounds in regular use, the other three being Lincoln park, Garfield park and the Steam Shovel athletic field.

The McKinley park field, which was brought into use late in the season of 1930, has not been entirely satisfactory. The drainage system is not the most efficient in the city and numerous complaints were lodged with the commission by players because of the uneven surface of the outfield. Added difficulty was encountered as cars were repeatedly driven across the area surrounding the playing field, despite protests by the Harding Memorial association, which owns the plot.

The proposed field is not a certainty by any means. Some plan may yet be worked out whereby the McKinley park field may be used again. The site will be used again. The commission will probably decide tonight on which site will be used this year.

NEW LEADER MOVES UP IN PIN TOURNAY

Detroit Smashes Way into Fourth Place in A. B. C. Meet.

By The Associated Press

DETROIT, April 6.—A new name appeared today in the "big five" standings of the team event in the American Bowling Congress tournament.

Scoring games of 974, 1,008, and 981, the High-Speed Gray five of Detroit's circle ten pin aggregation, moved into fourth place late last night when they hung up a 2,997 score.

The largest crowd ever to witness an American Bowling Congress tournament turned out to watch the Detroiters.

One other change was recorded during the day in the minor events. Charley Walenta and Johnny Felder of Buffalo, N. Y., went into a tie for tenth place in the doubles with a total of 1,274 on games of 418, 383, and 473.

Representative lineups from nine different cities will provide the entertainment on tonight's schedule. Officials reported last night that the following scores are still in the prize money: team event 2,860; doubles 1,112; singles 870; all events 1,730.

SEVEN TEAMS JOIN NEW DIAMOND LOOP

Clairton, Morral, Marion Cubs, Pleasant, Delaware, Caledonia and Marion C. & O. comprise the lineup of teams which will compete this season in the newly organized amateur baseball league. One more team will be added to the circuit, making it an eight-team loop. The final organization meeting of the league will be held Thursday night at 8 p. m. at the K. of P. hall. The officers of the league will be named at that time and schedule of play drawn up.

E. M. Fetter will manage the Clairton entry in the circuit. Other team managers are: Morral, P. E. Heller; Pleasant, C. E. Baesler; Delaware, Bob Foster; Caledonia, Homer Timson; and Marion C. & O., Bill Darnell. The Marion Cubs manager has not been named.

TORONTO CAPTURES FIRST HOCKEY TILT

By The Associated Press

NEW YORK, April 6.—The Toronto Maple Leafs, champions of the National hockey league for the past two or three seasons, are off to a flying start on the final lap of their race for the Stanley cup, a trophy they never have succeeded in winning.

The Leafs began their first final series for the emblem of world supremacy in professional hockey by turning back the New York Rangers 6 to 4 last night. The Rangers now must finish the series of the best three out of five games on foreign ice where, according to the accepted ideas of the game, they cannot be expected to do as well as at home.

LENZ WILL PILOT PHALANX COMBINE

The Phalanx fraternity has organized a recreation baseball team for the coming season. Clarence Lenz will manage the team and Bud Ebert is captain. Teams which would like to schedule games should get in touch with either the manager or captain.

The Phalanx lineup will include: Paris Romine, Arthur Stake, Bud Ebert, Edward Melvin, Edward Itchen, John Parshall, James Herrine, Paul Lindsey, Thomas Chapman, Earl Bacon, William Wasson, Ralph Shultz, Vance Harder, Charles Ellicker, Thomas Smithers, Donald Schlichts and Harold Lindsey.

LAST MINUTE RUSH FOR SOFTBALL POSTS EXPECTED BY SHAW

Only Seven Entries in at 3 P. M. Tuesday: Deadline at 8 P. M. Today.

With only seven entries turned in to 3 p. m. yesterday, Elmer Shaw, secretary of the city recreation baseball commission, today made ready to receive a flood of applications for berths in the four city softball circuits. Thirty-two teams competed last season and there is almost certain to be that many in the fold this season. The lack of entries at this late date is not an unusual occurrence, Shaw said today, nearly three-fourths of the teams last season coming in at the last minute. The deadline for filing applications is 8 p. m. today.

The Erie Mechanics (formerly the Roundhouse), Erie Traffic Club, West M. E. and Eagles' clubs are the latest entries received by Shaw. Wesley M. E. which last season supported two teams, will sponsor only one this season. The Methodist had a team in the Sunday school No. 2 and the Commercial leagues in 1931.

N. J. Riemer will manage the Wesley nine this season. Sam Sharrock will be at the helm of the Erie Mechanics this season and R. A. Adams will pilot the Erie Traffic club. Paul Carter will do the coaching for the Eagles. Wesley will not elect a captain for the full season, being the second team to drop this practice this year. A captain will be named by the manager before the start of each game. Calvary Evangelical of the No. 1 Sunday school circuit is the other team which has already signified its intention of not electing a full time captain.

Immediately after the close of entry deadline at 8 p. m. today, the softball commission will convene at the Y. M. C. A. to consider the awarding of berths in the various leagues. Teams which played in previous seasons will get first choice in the application for posts. Considerable business of importance will be taken up by the commission tonight. The date for the official opening of the season will be named by the commission at this time.

RITOLA TRAINS FOR OLYMPIC COMEBACK

By The Associated Press

NEW YORK, April 6.—While his old rival and countryman, Paavo Nurmi, is busily engaged conducting charges of professionalism abroad, Willie Ritola plans to put aside his carpenter's tools shortly, climb aboard the Olympic bandwagon and start his comeback by participating in the classic Boston A. A. marathon, on April 19.

When he went to Florida this winter, Ritola decided to start training for a return to the foot races. The one-time Finnish-American iron man, winner of Olympic championships in 1924 and 1928, had heard of Nurmi's plans to try the marathon. Three years ago he concentrated on the carpentry business but this year presented too good an opportunity for a resumption of his old rivalry with Paavo to be overlooked.

"Pepper" Martin, world's series hero of the St. Louis Cardinals, won the Capitol singles trap-shooting title in an Oklahoma City match. He broke 49 out of 50.

Tom Mottagh, former professional at the Ft. Douglas, Utah, course has taken a similar position at the new Capuchino golf links in San Francisco.

SPEARS RETURNS TO NATIVE MIDWEST TO REVIVE BADGER'S GRID FORTUNE

By The Associated Press

MADISON, Wis.—A happy wanderer of the football fields is coming back to his native midwest with 10 years of coaching experience spread across the continent. In taking over the head coaching job at the University of Wisconsin, Clarence W. "Doc" Spears is putting himself in an admittedly "tough spot."

But his coaching record rather conclusively proves that such hazards don't bother him.

One of the most colorful figures in the coaching business, because of his ready repartee as well as his huge build, Spears has been a consistent producer of winning teams. Himself a star lineman at Dartmouth, Spears was an assistant coach for a time at the Green Mountain school, then he took over the reins at West Virginia. After a five-year regime at Minnesota he went to Oregon, whence he is now returning to take charge of the spring training of the Badgers.

At Minnesota, through the seasons 1925 to 1929, he produced powerhouse eleven which finished that period with a record of 28 victories, nine defeats and three ties. In two seasons at Oregon, "Doc's" teams won 14 out of 18 games.

Strong defense has been Spears' forte, along with well-drilled lines, yet he also has evolved some brilliant offensive machinery when material has been adaptable.

He enjoys making backs out of linemen, and vice versa, as witness the cases of Clarence Munn, a promising high school fullback switched by Spears to guard, where he became an All-American; and Bronko Nagurski, changed from tackle, to fullback with equally marked results.

Spears holds an M. D. degree from Dartmouth and practiced medicine while coaching at West Virginia, but he's been too busy in more recent jobs to maintain a practice. Golf and hunting are his chief sideline activities now.

After two years at Oregon, Clarence W. "Doc" Spears is returning to the Big Ten to coach the Wisconsin grid team. The school wanted a coach with a "national reputation." Spears made one turning out powerhouse eleven at Minnesota, and on the west coast where his Oregon teams won 14 out of 18 games.

Gets Third "Contract"

Forest Lawn Presbyterian Sunday school softball team last night named Jim O'Dowd to manage the club for the third consecutive season. The team will not name a captain until near the opening of the season. Forest Lawn players are asked to report for the first practice Thursday at 8 p. m. at Garfield park.

INDIGESTION PHAR LAP, BRILL AUSTRALIAN HO

Crack Runner Dies in F Stable in California; Is Sudden.

By The Associated Press

MENLO PARK, Calif., April 6.—Phar Lap is dead.

Word of his death from came late yesterday as sudden as the lightning, from which his name in Senegalese, means sky.

Only a little more than two weeks ago this great red horse was valued at \$500,000. J. Davis of San Francisco owner with Harry Taylor, Australia.

Rumors of poison were counted by attendants, Dr. William Nielsen, veterinarian who journeyed from Australia.

Phar Lap, a huge animal hands and 3 1/2 inches high dark red color, caught the nation of western racing stunts from the day he first San Francisco, January 13, 1930. He was 5 years old last November, years old in this country. All race horses have a birthday first day of the year.

He cost \$800 as a yearling, a gangling awkward animal looked "more like a kangaroo" quote Davis. He lived to win 750 and bring his earnings, only to Sun Beau, American thoroughbred and world's money-maker. Sun Beau's is \$376,744.

Phar Lap started fifty-one and won thirty-seven races, ten of these victories were decisive.

Davis revealed he had returned down an offer of \$50,000 for his horse and at the same disclosed that no insurance was carried.

APPROVES NEW TRIAL FOR "HYMIE" MARTIN

Decision of Third District Appellate Court Upheld by Supreme Judges.

The appellate court of the Third district, of which Marion county is a part, was upheld today by the state supreme court in its decision granting Hymie Martin, convicted of the murder of former Councilman William E. Potter of Cleveland, a new trial, according to an Associated Press dispatch from Columbus.

The Third district court several weeks ago held that Martin was entitled to a new trial by a two-to-one vote, with Judge Charles L. Justice of Marion dissenting. Judges Phil M. Crow of Kenton and William Klingler of Lima agreed in granting the new trial.

Martin was convicted as the least of the East Side Cleveland suite where Potter was found shot to death in February, 1931. Betty Gray, an occupant of the same building, was the state's chief witness against Martin. Since then she has repudiated her testimony and disappeared.

FORMER POLICEMAN CLAIMED BY DEATH

EUCYRUS, April 3. Herman R. Hesche, 76, former member of the Bucyrus police force, died at his home here this morning after an illness of two years. He was born Aug. 31, 1858.

The funeral will be Friday at 1:30 p. m. in the Henderson & Lutz funeral home with burial in Oakdale cemetery.

Surviving are the widow and three sisters, Mrs. Violet Shunk of Bucyrus, Mrs. Ida Hise of Harborton and Mrs. Jennie Dickey of Chicago.

Conviction Upheld.

COLUMBUS, O., April 3. Conviction of Willard Stansberry of Wyandot county on charge of violating the state prohibition laws, was affirmed today by the state supreme court. Stansberry claimed error because his attorney was ill and unable to represent him at the trial.

Clubs Urged To Provide Funds for Garden Seed

Move To Give Marion Unemployed Vacant Lots for Cultivation This Summer Gains Momentum; Many Groups Make Plans To Raise Money for Supplies.

The movement to make it possible for unemployed Marion men to have gardens on vacant lots gained momentum today when a number of Marion organizations made plans to raise money to purchase seed.

The garden committee of the Family Welfare society, which instituted the garden movement Monday night, made an appeal this morning for other Marion organizations and clubs to follow the example of those which have pledged seed money.

Sufficient money to buy seed for a majority of the gardens can be raised if all clubs and groups make small contributions to the fund, members of the committee pointed out.

Gardening will be a welcome diversion from idleness, many unemployed men have indicated. Fifty-two jobless men, since yesterday morning, left their names on file in the Marion chamber of commerce office with a request for an opportunity to cultivate a vacant lot. F. O. Tuttle, who has been maintaining headquarters for the Marion "At Work" Civic committee in the chamber, estimated that 300 men will want vacant-lot gardens. Tuttle this morning urged Marionites owning vacant lots to give the committee permission to be turned into a municipal garden. Three hundred and fifty hours of garden work pledged in the city's job drive have been distributed among a group of jobless men. Tuttle reported. More work calls for spading bare gardens.
